

KASHYAP NASIT

SOFTWARE ENGINEER & SYSTEM BUILDER

Based in India | Kashyapnasit12345@gmail.com | +91 6355702811 | github.com/kashyapnasit109

Software Engineering student with a strong focus on algorithmic reasoning, system architecture, and intelligent automation. Proven ability to design and implement structured backend systems, AI-assisted operational tools, and data-driven applications. Passionate about solving complex challenges through clean code, logical decomposition, and scalable system design.

SKILLS

Web Systems: React, Node.js, Vite	Architecture: System Design, APIs	Databases: SQL, NoSQL
Core Languages: Java, C++, Python	Foundations: Data Structures & Algorithms	Integration: AI & Automation

KEY ACHIEVEMENTS

- IOQM Certification (2024):** Certified by the Indian Olympiad Qualifier in Mathematics for securing marks in the top 10%, demonstrating exceptional analytical and mathematical reasoning capabilities.

PROFESSIONAL EXPERIENCE & PROJECTS

Construction Intelligence Platform	Current
AI & Automation System	
- Architecting an intelligent queryable system from unstructured daily site reports and material usage for a construction firm. - Integrating natural language processing (NLP) models to enable seamless querying of construction operations. - Building a scalable backend to support a future smart operational dashboard for supervisors and engineers.	
Silicon Lottery	2026
Educational Web Platform	
- Developed an interactive educational website transforming complex computer organization concepts into visual learning modules. - Utilized React and modern web technologies to bridge the gap between dry academic theory and engaging interactive learning.	
Saludecare Hospital Management	2026
Structured Healthcare Database System	
- Designed the core data layer and backend logic for organizing patient, doctor, and administrative records. - Modeled complex entity relationships ensuring complete data integrity and reliable query performance across operations.	
Nexus Command Tracker	2025
OCR-Powered Attendance Platform	
- Developed an OCR-assisted data extraction pipeline to reduce manual entry and improve academic consistency tracking. - Built a clean, user-focused digital dashboard reflecting strong data layer design and practical automation.	

EDUCATION

B.Tech Computer Science
CHARUSAT University (Aug 2024 - Present)

- Currently in 4th semester.
- Performance:** 3rd Sem SGPA: 8.00 | CGPA: 7.89.

ADDITIONAL INFO

- Languages:** English, Hindi, Gujarati.
- Technical Interests:** Back-end Infrastructure, Advanced Algorithmic Problem Solving, Computer Networking & Systems Architecture, Applied Artificial Intelligence.

- Algorithmic Thinking Lab participant (DSA/DAA reasoning).
